Portfolio: <https://juliocesar-dev.vercel.app/>

PROFESSIONAL SUMMARY

Full Stack Developer specialized in building scalable web applications using **Node.js**, **Express.js**, **React**, and **PostgreSQL**. Experienced in designing **RESTful APIs**, **JWT authentication systems**, and **role-based access control (RBAC)** within modular backend architectures. Strong focus on **clean code**, **separation of concerns**, and **maintainable system design**. Comfortable working with modern deployment workflows and cloud platforms.

TECHNICAL SKILLS

Languages

JavaScript (ES6+), TypeScript

Frontend

React, Next.js, HTML5, CSS3, Tailwind CSS

Backend

Node.js, Express.js, REST API Development, JWT Authentication, RBAC Authorization, Middleware Architecture

Databases

PostgreSQL, MySQL, Prisma ORM

Tools & DevOps

Git, GitHub, Postman, Swagger (OpenAPI), Vercel, Render

PROFESSIONAL EXPERIENCE

Software Development Intern

Cuatro Sistemas | 2024 – 2025

Participated in the development of an internal **task management platform** designed for enterprise operational workflows with hierarchical role permissions.

Key Contributions

- Developed features for a **role-based task management system** supporting companies, branches, managers, and employees.
- Implemented **task prioritization, due dates, and status tracking workflows**.
- Built frontend components using **React** and integrated them with backend services developed in **Laravel**.
- Contributed to mobile functionality using **React Native** and web interfaces using **Next.js**.
- Designed and consumed **REST APIs for task filtering by priority, date ranges, and status**.
- Collaborated using **Git version control** and standard development workflows.

PROJECTS

Appointment Management System

Full Stack Web Application

Technologies: React, Node.js, Express.js, PostgreSQL, Prisma ORM, Tailwind CSS, JWT

- Designed and implemented a **modular backend architecture** (routes, controllers, services, middleware).
- Developed a **RESTful API with centralized error handling**.
- Implemented **JWT authentication and role-based authorization**.
- Modeled relational database structure using **Prisma ORM**.
- Deployed frontend on **Vercel** and backend on **Render**.
- Documented API endpoints using **Swagger (OpenAPI)**.

Personal Finance Management System

Full Stack Web Application

Technologies: React, TypeScript, Node.js, Express.js, PostgreSQL, Prisma ORM, Tailwind CSS, Recharts, JWT, Swagger

- Developed a **modular backend API** for financial transaction management.
- Implemented **CRUD operations with user-based data isolation**.
- Designed backend using **layered architecture (routes, controllers, services, data layer)**.
- Integrated **Prisma ORM** for relational modeling and optimized queries.
- Secured endpoints with **JWT authentication middleware**.
- Documented API endpoints using **Swagger (OpenAPI)**.

EDUCATION

Higher Technical Degree in Full Stack Programming

Instituto Teclab

2022 – 2026

English Studies Diploma

Asociación Rosarina de Cultura Inglesa (ARICANA)

2017 – 2020

LANGUAGES

Spanish — Native

English — Intermediate (B1–B2)
